Agreement: COVID-19 Legal Frameworks for Vaccination Research Rapid Response (157350) (Aug. 1, 2020 - Jul. 31, 2021)
Description:
The purpose of this funding opportunity is to better understand the laws and regulations for vaccination that exist across Canada in order to determine whether they support or impede the achievement of vaccination program goals and objectives in both routine and emergency contexts, including the current COVID-19 pandemic. In addition, the study will examine the specific issues of mandatory vaccination and compensation for serious events following vaccination, which are of particular relevance for potential COVID-19 vaccine(s).

On August 1, 2020, the Canadian Government, or rather taxpayers, handed out over $240,000 to conduct research which included the study of the issues surrounding MANDATORY vaccines. Yes, that was apparently worth paying for a study. Now, let's see what else the public's money has been spent on.

This is by no means all of them, but are some of the bigger grants flagged by searching "vaccines" on the Government of Canada website.

3. NSERC/CIHR/SSHRC Research Grants

New funding for research collaborations to address pandemic-related issues

In response to the COVID-19 pandemic, the Natural Sciences and Engineering Research Council of Canada (NSERC) is leveraging the expertise of researchers in natural science and engineering and their partners across Canada to address this unprecedented crisis. Below is a breakdown of the investments made through the NSERC Alliance COVID-19 and Tri-agency Applied Research Rapid Response to COVID-19 grants. This information will be updated on an ongoing basis as new projects are awarded. The deadline to submit an application is June 1, 2020.

NSERC Alliance COVID-19 grants

	Total number of funded projects	Total amount awarded
	19	$907,601
	145	$7,202,984
	37	$1,826,114
	53	$2,612,780
	63	$3,138,201

	24	$1,727,579
	6	$447,632
	2	$150,000
	19	$1,423,938
	1	$44,562

NSERC, the Natural Sciences and Engineering Research Council, has also handed out hundreds of grants over the last year regarding “Covid research”. It’s available for all to see.

CIHR, the Canadian Institutes for Health Research, has also listed the grants they they will be handing out. As of August 8, 2020, it was listed at $111 million.

SSHRC, the Social Sciences and Humanities Research Council, also has a website detailing information about its grants and spending.
